

Department of Microbiology

TUBE CHANGE NOTIFICATION

To improve the processing of samples within the Laboratory,
the current **VACUETTE**[®] red top, black ring, serum tube
will now be replaced with a

VACUETTE[®] tube with a **red top**, **yellow ring**
serum tube containing gel for the following tests:

- **Bacterial and Viral Serology**
 - **Antibiotic Assays**
 - **Mycology Assays**

KFK261

Please change existing order code

KFK307

for the new code
